

HAJIR HIDAJI
PHOTOGRAPHY PORTFOLIO

BACKGROUND

As an architect, artist, and photographer, I explore the relationship between light, material, space, and perception. Photography serves as a tool for observation, influencing my understanding of composition, atmosphere, and the built environment.

INDUSTRIAL STUDY

Tehran, Iran | 2013

A photographic investigation of a bicycle scale model, focusing on industrial form, mechanical detail, geometry, and visual composition. The study examines how light and scale influence the perception of structure and material.

NATURE STUDY

NATURE STUDY

Mazandaran, Iran | 2013

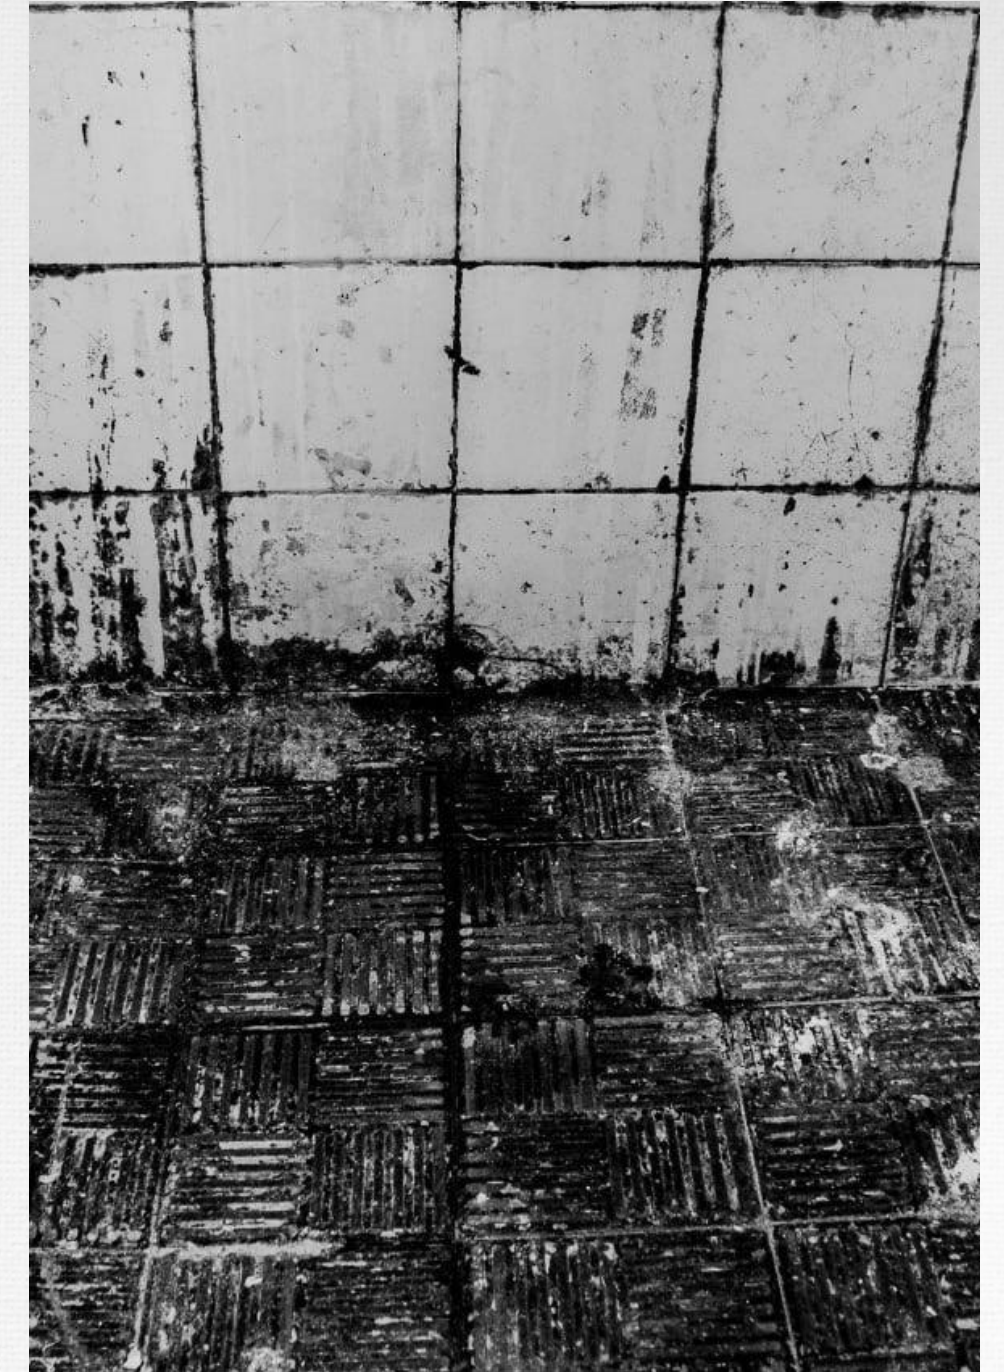

A photographic observation of the Mazandaran countryside, focusing on atmosphere, scale, and the relationship between landscape and human presence

INFRASTRUCTURE STUDY

TECHNICAL SPACES

Tehran, Iran | 2013

A photographic exploration of the hidden technical spaces within buildings. Through light, texture, and composition, the images reveal the visual character of mechanical systems, piping, wiring, and service infrastructure that quietly support everyd

GEOMETRY OF INFRASTRUCTURE

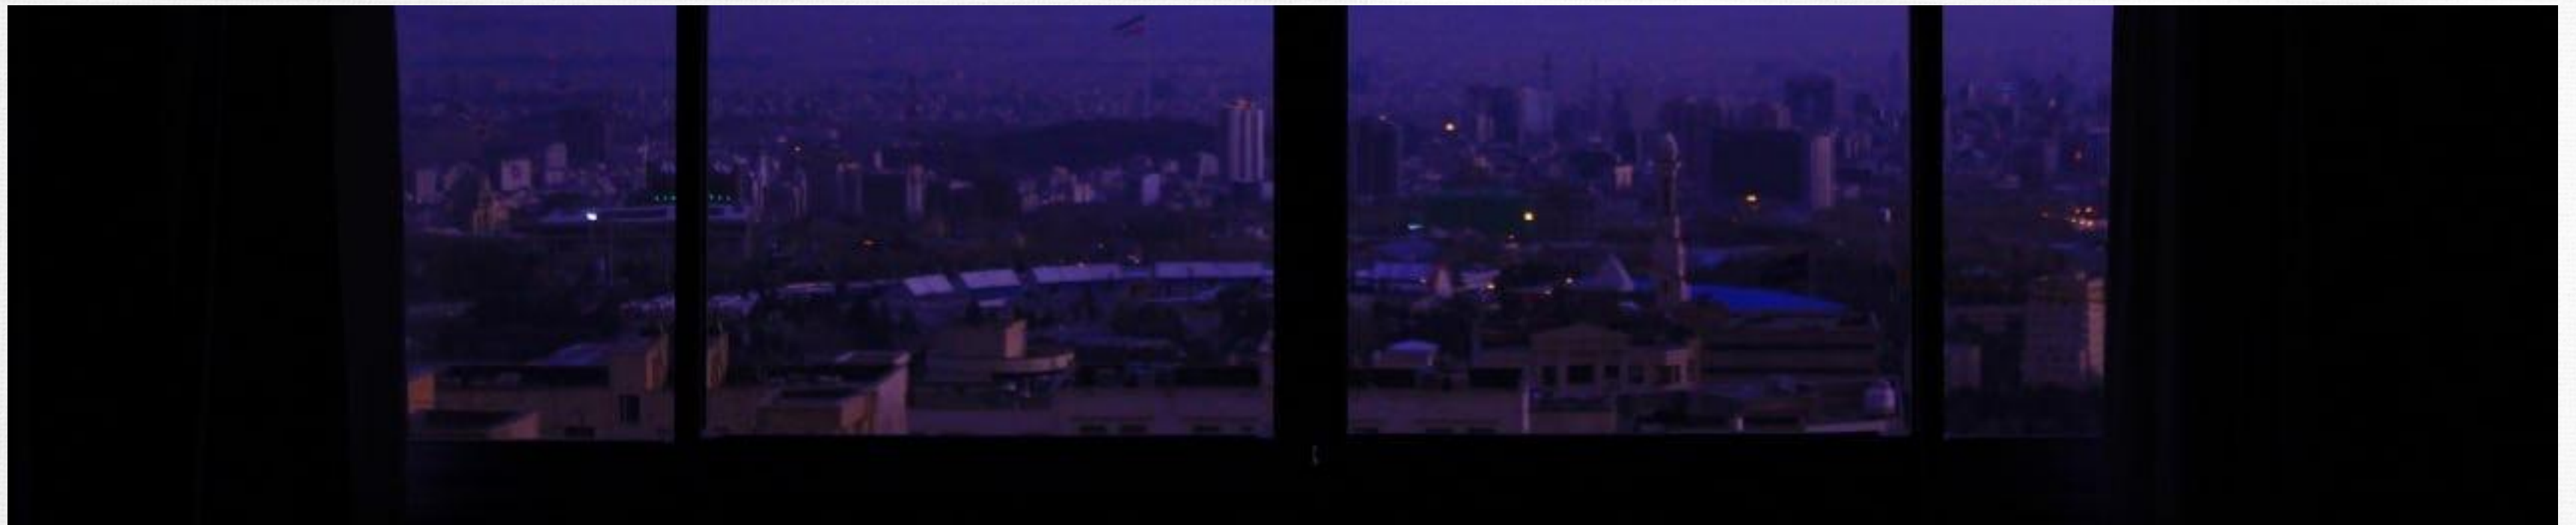

Tehran, Iran | 2013

An exploration of geometry, structure, and perspective within urban infrastructure.

WINDOW TO THE CITY

Tehran, Iran | 2013

A photographic exploration of the city through framing, light, and perspective, capturing the dialogue between interior space and the urban landscape

WAYS OF SEEING

Tehran, Iran | 2013

A reflection on perception and observation, exploring how photography shapes the relationship between the viewer, the image, and the world beyond the frame

THE STRIKE

Tehran, Iran | 2013

A fleeting moment of light and energy captured above the city, transforming a fraction of a second into a lasting visual record.

APPLES

Tehran, Iran | 2013

A photographic study of transformation, revealing unexpected forms, textures, and identities within an ordinary object.
